**VERITEC, INC., WINS INTERNATIONAL AWARD IN MILAN, ITALY;
VAN TRAN, VERITEC, INC., CEO, INDUCTED INTO ID PEOPLE HALL OF FAME**

Ms. Van Tran, CEO of Veritec, Inc. was one of the recipients of this year's ID People Awards – the Oscars of the Auto Identification industry, held in Milan, Italy. Ms. Tran was inducted into ID People Hall of Fame at an exclusive ceremony, November 26, 2007, in Milan during the sixth ID WORLD International Congress, the global summit on automatic identification.

The ID People Hall of Fame Award is presented to the individual who has epitomized the spirit of enterprise and leadership during their career in the auto ID community.

Ms. Van Tran has been the guiding force in the steady growth of Veritec and its state-of-the-art solutions for positive biometric ID. Veritec is a patent-holder and manufacturer of two-dimensional matrix symbology products, which can contain an amount of information that would not normally fit onto an ordinary bar code, enabling them to be used for a broader range of applications.

ID People Awards are presented in recognition of the contribution made by thought leaders, innovators and pioneering adopters who have distinguished themselves by their achievements during the past 12 months.

ABOUT VERITEC, INC.

Veritec was incorporated in the State of Nevada on September 8, 1982 for the purpose of developing; marketing and selling a line of microprocessor based encoding and decoding system products that utilize Matrix Symbology™ or, 2-Dimensional Barcode technology. These Patents are owned by Veritec's wholly owned subsidiary, VCode Holdings, Inc.

Veritec's encoding and decoding systems allow a manufacturer, distributor, reseller or user of products, to create and apply unique identifiers to the products in the form of a coded symbol. The coded symbol containing the binary encoded data applied to the product enables automated manufacturing control, together with identification, tracking, and collection of data through cameras, readers and scanners also marketed by Veritec. The collected data is then available for contemporaneous verification or other user definable purposes

Information about the Veritec Technologies is available at www.veritecinc.com.
